Your lecturers and Expedition Leader will cover all aspects of the voyage including ornithology, marine biology, geography, geology, history and the environment, as well as practical things like photography. The expedition staff work conscientiously with you on deck and in the field, improving your observational skills to allow you to experience all that the destination has to offer. Their strong sense of ethics and ecological knowledge make for stimulating and mindful conversation whether onshore or at the dinner table. The expedition staff will be experienced drivers who will pilot the Zodiac landing crafts used for shore landings and Zodiac cruises in a responsible manner consistent with our safety standards on board.

To avoid any problems on check-in and with possible excess baggage charges, please consult your airline for specific restrictions.

In the world's most remote destinations that we travel to on the G Expedition, we cannot offload our plastics, glass or tin waste for recycling. Therefore, we try to reduce what single use items we use. You will see on the ship that every effort is being made to stop the use of single use plastic containers, bags and other items. In an effort to prevent plastic waste from entering the waste stream, we are asking for your help. We offer exceptional drinking water on the ship with refilling stations for your reusable water containers. You will be provided a complimentary water bottle to fill up as needed.

Plastic items such as single use shampoo/conditioner plastic containers cannot be recycled, so please plan to bring any plastics back to your home countries for recycling. When can I do my laundry on this trip?

Aboard the G Expedition, laundry is available to be serviced by our shipboard team at an additional charge.

What the visas and entry requirements for my trip?

All countries require a valid passport (with a minimum 6 months validity). Contact your local embassy or consulate for the most up-to-date visa requirements, or see your travel agent. It is your own responsibility to have the correct travel documentation. Visa requirements for your trip will vary depending on where you are from and where you are going. We keep the following information up to date as far as possible, but rules do change and sometimes without warning. While we provide the following information in good faith, it is vital that you check the information yourself and understand that you are fully responsible for your own visa requirements.

Visa information specific to your destination and nationality can be found in our Important Pre-Departure Information page [here](#)

How much spending money do I need for my trip?

Every traveller is different and therefore spending money requirements will vary. Some travellers may drink more than others while other travellers like to purchase more souvenirs than most. Please consider your own spending habits when it comes to allowing for drinks, shopping and tipping. While on board our Expedition ships, please note that the currency for all purchases is USD.

What should I know about currency, credit cards, and exchanging money while on this tour?

Before and after the cruise:

Credit cards and debit cards are very useful for cash advances. Visa cards are the most widely accepted cards. While ATMs are widely available, there are no guarantees that your credit or debit cards will actually work overseas. Check with your bank. You should be aware that to purchase products or services on a credit card a fee of 5%-10% usually applies. Do not rely on credit or debit cards as your only source of money. A combination of US dollars or Euros cash and cards is best. Always take more rather than less, as you don't want to spoil the trip by constantly feeling short of funds.

While on board the G Expedition:

Cash and most major credit cards (VISA, Mastercard and American Express) are accepted to clear incidental bills at the end of the cruise by the ship's Purser (eg: bar bills, laundry, crew tips, etc).

Should I be tipping on my trip?

Although it may not be customary to you, it is of considerable significance to the people who will take care of you during your travels. It is an expression of satisfaction with the persons who have assisted you on your expedition. The industry standard and suggested amount is USD \$10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set only as a guideline. Crew tips may be settled using most major credit cards (VISA, Mastercard and AMEX) by the ship's Purser. The money is collected by the Hotel Manager at the end of the voyage and distributed amongst the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.

What activities are optional on this trip?

- Edinburgh Food Tour

Lerwick

- Shetland Museum visit

Are there any health considerations I should know before travelling?

Please consult your doctor for up-to-date medical travel information well before departure. We require all passengers traveling on the G Expedition to review our medical questionnaire. The questionnaire can be found online at:

www.gadventures.com/medical_form

Passengers with preexisting medical conditions are required to submit a medical form signed by a physician to their booking agent. It is very important that we are advised of any special meal requirements, food allergies, or prescribed medication when you confirm your tour. The ship is equipped with a small infirmary with typically required medications and limited equipment. The ship's doctor is available for visits during the day and is available 24 hours per day for emergencies.

In case of an emergency, please also bring with you a signed and dated letter from your physician (to be given to our doctor on board, as well as for any medical authorities) stating any health problems and dosage requirements. International health regulations do not currently require any inoculations for the countries that you will visit on our voyage. We suggest that you confer with your own physician to be sure your routine immunizations, such as tetanus, diphtheria and hepatitis A, are up-to-date before travelling. Older travelers, in particular, may wish to consider preventive measures against influenza and pneumonia.

Trip Specific Responsible Travel

OUR COMMITMENT TO RESPONSIBLE TRAVEL

As a leader in sustainable tourism, we are committed to ensuring that all of our marine expeditions operate in a socially and environmentally responsible manner. All expeditions aboard the G Expedition meet and exceed all environmental regulations and protocols in the regions that we visit.

Staff & Crew:

Our crew and expedition team act as stewards of the environment and are well versed in the strict environmental protocols on board and on land. All of our travellers are thoroughly briefed in these protocols before being allowed to participate in excursions and are always supervised by our team when on shore.

4-stroke Outboard Engines:

In an effort to drastically reduce environmental pollutants 4-stroke outboard engines have been installed on all of our Zodiacs. Our 4-stroke outboard motors use less fuel and produce less noise pollution than 2-stroke engines. Since there is no mixing of oil and gas the exhaust is intrinsically much cleaner and friendlier to the environment.

Planeterra Foundation

Through our commitment to responsible tourism we have developed the Planeterra Foundation, a non-profit organization that supports local community projects and small-business owners worldwide.

Sea Chart Auction:

At the end of each departure, the Captain's Sea Chart is auctioned and all proceeds are donated to the Planeterra to support our community initiatives in places G Adventures travels to.

Our end goal is to minimize the potential negative impact of tourism in the areas in which we operate while maximizing the positive impact of instilling a widened understanding and appreciation of these regions. During our voyages, we ask all our passengers that they see their visit to these areas as a privilege and that they share their newfound knowledge and experiences with others when they return home. We also hope that by bringing people to these regions that they continue to act as ambassadors and stewards of these areas.

What is Planeterra?

Every G Expedition cruise raises thousands of dollars for G Adventures' non-profit partner, Planeterra, supporting both the Ocean Health Fund and Planeterra's community social enterprise programs. The Ocean Health Fund helps combat waste which threatens ocean health, conducts scientific research on ocean animals and climate change, as well as investing in programs that work with local communities to promote ocean conservation and stewardship. Onboard the G Expedition, there are many opportunities to learn about these initiatives, to participate in Citizen Science programs, or purchase items in the gift shop from Planeterra-supported communities around the world.

The Planeterra Foundation planeterra.org is a Canadian non-profit organization that helps empower local people to develop their communities, conserve their cultures, and create humane and supportive systems for their endeavours. Planeterra provides capacity building and catalyst grants to get community social enterprises off the ground. These businesses address local challenges by providing benefits for indigenous people, empowering marginalized women, and granting disadvantaged youth access to education, employment, and brighter futures. Planeterra also works to ensure these businesses have a thriving customer base by integrating programs into G Adventures' itineraries globally.

G Adventures is Planeterra's largest corporate donor, covering all operating costs so 100% of your donation will bring opportunity to people in need.

Dollar-a-Day Program

G Adventures' Dollar-a-Day Program provides travellers with the opportunity to give back to the people and places visited on our tours by donating one dollar for every day you are on trip. 100% of these donations go directly to support community development projects worldwide that are implemented by Planeterra.

How old must I be to join this trip?

Keeping in Touch on the G Expedition

While you are on board the G Expedition, we know that keeping in touch with your family and friends is important to you. We want to ensure you have the tools available to keep you connected in some of the most remote regions of the world. We have a satellite system, which allows our travellers to connect to the internet or make phone calls with the purchase of personal data credit. Travellers may use our computer room or use any Wi-Fi enabled device to connect to our network, which is available in public areas on Decks 4 and 5. Satellite phone service is available and private calls can be made from our phone booth. Due to using a satellite connection and travelling in remote regions, internet can be slow and sometimes unavailable. The connection in the high Arctic is particularly challenging and no connection is available while in and around South Georgia Island.

Are international flights included in this trip?

No, international flights are generally not included in the price of your tour.

However, on some combo tours travelling between two different countries, international flights are included as part of the itinerary and price of the tour. Please speak to your GCO or booking agent for further details.

In addition, check-in times and baggage allowances/restrictions vary by airline and can change at any time. For the most up-to-date information for your flight, please contact your airline. We recommend checking in online in advance to avoid potential delays at the airport.
