Day 1

Baltra / Santa Cruz

Arrive to Baltra airport no later than 10:30am to arrive at the meeting point by 11:00am. Transfer to Santa Cruz Island with the CEO to visit the highlands before arriving to Puerto Ayora and a visit to the Charles Darwin Research Station. Board the boat in the late afternoon.

After arrival in Baltra, visit the highlands of Santa Cruz Island for a special opportunity to view the islands' most famous reptile: the giant tortoises in their wild habitat. What a privilege to see an endangered species roving in this lush environment! The vegetation of the area includes the Scalesia Forest (an endemic giant daisy tree) and birds such as the vermilion flycatcher will delight everyone with its scarlet feathers against an emerald green forest. Look for Darwin's finches, particularly the famous Woodpecker Finch. We will then visit the Fausto Llerena Breeding Center and Charles Darwin Research Station to learn first hand of the conservation and research efforts in the islands. There, you'll see several subspecies of adult tortoises, lots of hatchlings, and learn of the repatriation programs that are saving several subspecies of tortoises and iguanas from extinction.

Today's Activities

Visit To The Highlands of Santa Cruz

Santa Cruz Island

Head to Santa Cruz's verdant highlands. This is a perfect place to hike through the grounds and see giant tortoises in their natural environment, before savouring an included lunch.

Visit Fausto Llerena Breeding Center a great place to observe many species of tortoises. Brought back from the brink of extinction, see the famous Galápagos tortoise up close - a corral houses adult tortoises, and a nursery cares for the young until around age three when their shells have hardened.

This area also houses the Charles Darwin Research Station, a scientific organization initiated in 1964, which works to preserve the Galápagos' ecosystem through the conservation efforts of scientists, researchers, and volunteers. While the offices themselves are not open to visitors, the research station provides a study location for international scientists and environmental education for the local community.

The Reina Silvia Voyager is just as elevated as the name implies. This modern catamaran offers increased stability when cruising the waters of the Galápagos Islands. Enjoy the view from the spacious sun deck, Jacuzzi, or private balconies (available with most cabins).

Enjoy the day on Española Island, one of the oldest in the archipelago. Visit the white sandy beach of Gardner Bay and the bird colonies of Punta Suárez. Take guided walks to observe wildlife and have free time for swimming or snorkelling.

Spend part of the day visiting spectacular Gardner Bay. Walk across a lovely white sand beach amongst a busy sea lion colony and nesting sea turtles (seasonal). Later, take some time exploring the Punta Suárez visitor site, on the north-western corner of the island. Here, birds are everywhere—underfoot, on the trail, overhead, diving into the sea, taking off from cliffs, sitting quietly, and if the timing is right, engaging in ritual mating dances or hatching eggs. As the panga driver guides us in through the surf to the landing, sea lions are often seen “hanging 10” on the waves. A great tangle of marine iguanas, stretched out in the sun on the beach, are usually present when we arrive.

Spend the morning exploring the red sand beaches and salt water lagoons of this tiny island. Look for wading flamingos and nesting pelicans before heading out to do some snorkelling. In the afternoon, discover the lava flows and lava tunnels on the small island of Chinese Hat. After, enjoy a refreshing dip in turquoise waters. Search for fish and sea turtles in the protected bay.

Rabida is a “small red island,” the colour of the volcanic cinders. The red beach is usually well populated with sea lions and pups. At times the low salt bushes are loaded with nesting California Brown Pelicans. Just behind the beach, in a brackish lagoon, see Bahamas White-cheeked Pintail Ducks, migratory shore and wading birds, and Greater Flamingos. Flamingos need the presence of a dozen or two other flamingos to stimulate their synchronous mating dance. If our timing is right, we will be able to observe this highly entertaining ritual as well as two species of boobies nest along the cliffs. Later, travel to Sombrero Chino, a tiny island just off the southeast tip of Santiago. Its name (Chinese Hat) describes the island’s shape. Though centrally located, it is one of the least visited sites in the area. Patches of pahoehoe lava, cracked lava and lava tubes can be found on the island. If you’re up for a walk, a path leads to some spectacular views of the waves crashing below. White-tipped sharks frequent the area, as do the playful Galapagos Penguins and sea lions.

Is there a disclaimer I should read before booking this trip?

The information in this trip details document has been compiled with care and is provided in good faith. However it is subject to change, and does not form part of the contract between the client and the operator. The itinerary featured is correct at time of printing. It may differ slightly to the one in the brochure. Occasionally our itineraries change as we make improvements that stem from past travellers, comments and our own research. Sometimes it can be a small change like adding an extra meal along the itinerary. Sometimes the change may result in us altering the tour for the coming year. Ultimately, our goal is to provide you with the most rewarding experience. Please note that our brochure is usually released in November each year. If you have booked from the previous brochure you may find there have been some changes to the itinerary.

VERY IMPORTANT: Please ensure that you view a final copy of your Trip Details a couple of days prior to travel, in case there have been changes that affect your plans.

Is there an itinerary Disclaimer?

While it is our intention to adhere to the route described below, there is a certain amount of flexibility built into the itinerary and on occasion it may be necessary, or desirable to make alterations. The itinerary is brief, as we never know exactly where our journey will take us. Due to our style of travel and the regions we visit, travel can be unpredictable. The Trip Details document is a general guide to the tour and region and any mention of specific destinations or wildlife is by no means a guarantee that they will be visited or encountered. Aboard expedition trips visits to research stations depend on final permission.

Additionally, any travel times listed are approximations only and subject to vary due to local circumstances.

What important notes should I be aware of before the trip?

1. It is important to note that for landings in Galapagos we use zodiacs/pangas for "wet" or "dry" landings where you might have to wade ashore in shallow water. This will require you to be able to safely navigate the terrain on uneven ground, to lift your leg over the side of a Zodiac/panga, and stand throughout the landing with no place to sit. Our team is there to assist you if needed but having good mobility is important for your safety and enjoyment. Please also note that the yacht does not have an elevator and thus staircases must be used to move between decks. Additionally, some snorkeling activities will take place in open water and you will need to go up and down small ladders from the panga.
2. G Adventures requires your passport number, full name and date of birth at the time of booking. Please make sure you give this information to your travel agent.
3. Once you have confirmed your booking please give us your international flight details and advise us if you have any important issues such as allergies, special diets, etc.
4. The Ecuadorian government currently levies a Galapagos Islands Park entry fee of \$200 USD per person (\$100 USD for children under 12 years old). This is payable at the airport upon arrival in the park. It is not included in the cost of the tour, and must be paid in CASH. This fee funds Park maintenance and supervision in Galapagos, as well as ecological study, conservation and infrastructure development in Ecuador's other National Parks. Entry fees and the funds they generate for the National Park System are among measures taken by the Ecuadorian government to protect its natural heritage.
5. The Galapagos National Park authorities have implemented a system of Transit Control Cards at a fee of \$20 USD per person. This card is to be purchased online on the website of the Governing Council of the Special Regime of Galapagos in the following link:

<https://siig-cgreg.gobiernogalapagos.gob.ec/tct/emission?lang=en>

We recommend that you start this process at least 24 hours prior to your departure for the Galapagos.

This Transit Control Card TCT must be presented at the CGREG counter according to the procedures required, before the departure of your flight. If you have trouble purchasing your TCT through the link, please arrive at the airport at least two/three hours before your flight to purchase it directly at the Galapagos Government Council counter.

6. Please note that the rooming on our Galapagos yachts is done on a first-come, first-serve basis, and we are not able to guarantee the specific cabin you will receive on board. The cabins are comfortable and clean, all with private bathrooms. Due to the specific location of the cabins on board, the window sizes vary as well as the noise at times when the boat is navigating, given the proximity of the cabin to the engine room. Our friendly and competent crew will ensure the smooth and comfortable journey for the duration of your tour.
7. Please note passengers will be responsible for taking their baggage once they pass through customs, then they will meet the Naturalist guide and take a shuttle bus for 10 minutes in Baltra, then a boat ferry for 10 minutes to Santa Cruz. After this, the passengers will have to pick up their luggage in order to check that all their baggage is there and send it directly to Reina Silvia. Please check that your baggage has the G Adventures Tag. For passengers arriving in Baltra ask the Naturalist guide for the baggage tags. The Naturalist Guide will give all the different instructions to follow.

When can I do my laundry on this trip?

Full laundry facilities are not available onboard our yachts in the Galapagos. If you do want to do your own laundry we suggest you bring non-polluting/biodegradable soap.

What the visas and entry requirements for my trip?

All countries require a valid passport (with a minimum 6 months validity). Contact your local embassy or consulate for the most up-to-date visa requirements, or see your travel agent. It is your own responsibility to have the correct travel documentation. Visa requirements for your trip will vary depending on where you are from and where you are going. We keep the following information up to date as far as possible, but rules do change and sometimes without warning. While we provide the following information in good faith, it is vital that you check the information yourself and understand that you are fully responsible for your own visa requirements.

Visa information specific to your destination and nationality can be found in our Important Pre-Departure Information page [here](#)

** Please note that by February 2nd 2018, it will be mandatory for every traveler to show proof of insurance (covering medical, accident, death) to the immigration authority at the airport or border crossing into Ecuador. This insurance must cover the traveler for their entire length of stay in the country.

If you do not carry proof of insurance and/or an insurance assistance card that satisfies this requirement, it is possible that your entrance into Ecuador could be denied.

How much spending money do I need for my trip?

Every traveller is different and therefore spending money requirements will vary. Some travellers may drink more than others while other travellers like to purchase more souvenirs than most. Due to the remoteness of the Galapagos islands, onboard our vessels, there is no credit card machines therefore only cash is accepted. It is important that you withdraw enough cash for the duration of your trip. Once in the islands, ATM machines are extremely limited and unreliable. Please consider your own spending habits when it comes to allowing for drinks, shopping and tipping. Please also remember the following specific recommendations when planning your trip. We would also recommend to contact your local bank prior to your departure to see if international withdrawals can be done with no issues.

What should I know about currency, credit cards, and exchanging money while on this tour?

Credit cards and debit cards are very useful for cash advances. Visa cards are the most widely accepted cards. While ATMs are widely available some may not accept all international credit or debit cards. You may need to try at more than one machine if the first does not accept your card. You should also check with your bank before leaving to ensure that your card works internationally. You should be aware that to purchase products or services on a credit card a fee of 5%-10% usually applies. Do not rely on credit or debit cards as your only source of money. A combination of US dollar cash and cards is best. Always take more rather than less, as you don't want to spoil the trip by constantly feeling short of funds. Please bring USD banknotes in denominations smaller than 100, as they can be hard to exchange in Ecuador. 100 dollar bills of certain series (e.g. CB B2) can be especially hard to cash! CURRENCY EXCHANGE TIP: Please be advised that slightly torn notes, notes that have been heavily marked or are faded may be difficult to exchange. It is best to bring notes in fairly good condition, in denominations lower than 100USD (or equivalent). As currency exchange rates can fluctuate often we ask that you refer to the following website for daily exchange rates: www.xe.com

How much emergency money should I bring on this trip?

Please also make sure you have access to at least an additional USD \$200 (or equivalent) as an 'emergency' fund, to be used when circumstances outside our control (ex. a natural disaster) require a change to our planned route. This is a rare occurrence!

Should I be tipping on my trip?

Tipping is an expected - though not compulsory - component of your tour program and an expression of satisfaction with the persons who have assisted you on your tour. Although it may not be customary to you, it is of considerable significance to the people who will take care of you during your travels. At the end of each trip if you felt your G Adventures CEO or and crew did an outstanding job, tipping is appreciated. There will be two envelopes left in your cabin on the final night of your tour, one for the CEO and one for crew members. The amount is entirely a personal preference, however as a guideline a per traveller tip of USD 100-150 per week per person for your CEO and USD 100-150 per week per person for the crew can be used.

What activities are optional on this trip?

- No optional activities

What do I need to know to about safety and security on my trip?

Many national governments provide a regularly updated advice service on safety issues involved with international travel. We recommend that you check your government's advice for their latest travel information before departure. We strongly recommend the use of a neck wallet or money belt while travelling, for the safe keeping of your passport, air tickets, travellers' cheques, cash and other valuable items. Leave your valuable jewellery at home - you won't need it while travelling. Many of the hotels we use have safety deposit boxes, which is the most secure way of storing your valuables. A lock is recommended for securing your luggage. When travelling on a group trip, please note that your CEO has the authority to amend or cancel any part of the trip itinerary if it is deemed necessary due to safety concerns. Your CEO will accompany you on all included activities. During your trip you will have some free time to pursue your own interests, relax and take it easy or explore at your leisure. While your CEO will assist you with options available in a given location please note that any optional activities you undertake are not part of your itinerary, and we offer no representations about the safety of the activity or the standard of the operators running them. Please use your own good judgment when selecting an activity in your free time. Although the cities visited on tour are generally safe during the day, there can be risks to wandering throughout any major city at night. It is our recommendation to stay in small groups and to take taxis to and from restaurants, or during night time excursions.

Protests and Demonstrations- Protests and demonstrations, even those that are well intended, have the potential to turn violent with no warning. Counter protests can also turn violent. Action by security forces to disperse demonstrators and protesters may occur at any time. If you are in an area where demonstrators or protesters are gathering, avoid the temptation of staying for a good photo opportunity and leave the area immediately.

Water based activities have an element of danger and excitement built into them. We recommend only participating in water based activities when accompanied by a guide(s). We make every reasonable effort to ensure the fun and adventurous element of any water based activities (in countries with varying degrees of operating standards) have a balanced approach to safety. It is our policy not to allow our CEOs to make arrangements on your behalf for water based activities that are not accompanied by guide(s).

Swimming, including snorkeling, is always at your own risk.

We take all prudent measures in relation to your safety. For ways to further enhance your personal safety while traveling, please visit:

What rules should I know before joining this trip?

Illegal drugs will not be tolerated on any trips. Possessing or using drugs not only contravenes the laws of the land but also puts the rest of the group at risk. Smoking marijuana and opium is a part of local culture in some parts of the world but is not acceptable for our travellers. Our philosophy of travel is one of respect towards everyone we encounter, and in particular the local people who make the world the special place it is. The exploitation of prostitutes is completely contrary to this philosophy. Our CEOs have the right to expel any member of the group if drugs are found in their possession or if they use prostitutes.

Is travel insurance required for my trip?

Travel Insurance: Travel insurance is compulsory in order to participate on any of our trips. When travelling on a group trip, you will not be permitted to join the group until evidence of travel insurance has been sighted by your CEO, who will take note of your insurance details. When selecting a travel insurance policy please bear in mind that all clients must have medical coverage and that we require a minimum coverage of USD 200,000 for repatriation and emergency rescue. We strongly recommend that the policy also covers personal liability, cancellation, curtailment and loss of luggage and personal effects. If you have credit card insurance we require proof of purchase of the trip (a receipt of credit card statement) with a credit card in your name. Contact your bank for details of their participating insurer, the level of coverage and emergency contact telephone number.
