Is there a travel disclaimer for my itinerary I should review before booking this trip?

This compiled itinerary represents our thoughtfully designed plan, provided in good faith and correct at the time of publication. However, to ensure we deliver the most rewarding experience possible, our itineraries remain dynamic; we continuously refine our routes based on research, field insights, and guest feedback, meaning details may evolve between the release of our annual directory and your departure. Flexibility is a cornerstone of our travel philosophy, and while we intend to follow the path described, the nature of exploring unpredictable environments means alterations may occur, and any mention of specific destinations or wildlife encounters cannot be guaranteed. We invite you to view these travel times and details as an approximate guide rather than a strict contract, and we kindly ask that you review a final copy of your Trip Details a few days prior to departure to ensure you have the most current information for your upcoming expedition.

What important notes should I be aware of before the trip?

1. LUGGAGE

Due to weight restrictions on the internal flights in Kenya, your checked luggage may not weigh more than 15kg (33 lbs).

2. AGE RESTRICTIONS

Please note that all passengers must be aged 15 years or older (prior to start of travel) to go on this tour - there are no exceptions to this as it is for safety reasons and strictly controlled by the Government of Rwanda.

3. PHYSICAL REQUIREMENT

This trip is rated a level 4 physical requirement- travellers should be in excellent physical condition, without any heart problems and prepared to spend strenuous days in humid rain forests, steep terrain and high altitude trekking for gorillas, as well as other primates. Please ensure you meet the requirements as described under "physical rating".

4. TRAVEL DAYS

Travelling can be difficult, as long drives and poor road conditions are the rule as opposed to the exception in Rwanda. Despite this, the diversity and scenery of the African landscape, the local culture and abundant wildlife are all well worth the experience.

5. WILDLIFE SIGHTINGS

G Adventures can never guarantee the sighting of wildlife, especially when it comes to mountain gorillas. However, the mountain gorilla trek is organized to ensure success. Before heading into the jungle, our local guides receive coordinates from trackers on the whereabouts of the gorillas, and the trackers stay with the gorillas until the group arrives.

6. ILLNESS

Please note that if you are unwell with anything contagious, even a common cold, you may be denied any of the treks to ensure the safety of the gorillas, golden monkeys and chimps. This is a national park regulation, and trekking permits will not be refunded if you are denied entrance due to illness.

7. CAMERAS

As it is very dark and damp in the jungle; please ensure your camera equipment is appropriate for such conditions and that you bring dry bags to protect it.

8. ELECTRICITY

The power supply in Kenya and Rwanda is nominally 240VAC, 50hz. Variable voltage, spikes and sporadic, unexpected, unscheduled power cuts of varying duration can be expected.

9. YELLOW FEVER: COUNTRY DETAIL

There is no risk of Yellow Fever transmission in Botswana, Kenya, Malawi, Namibia, South Africa, Tanzania, Uganda, Zambia, or Zimbabwe. However, all of these countries require proof of vaccination under International Health Regulations to prevent importation of the virus. It is compulsory to show a valid Yellow Fever vaccination certificate if you are travelling to any of the above countries from a Yellow Fever endemic country, or have recently transited through one (12 hours or more in airport). Endemic countries include: Angola, Benin, Bolivia, Brazil, Burkina Faso, Burundi, Cameroon, Central African Republic, Chad, Colombia, Democratic Republic of the Congo, Republic of the Congo, Côte d'Ivoire, Ecuador, Equatorial Guinea, Ethiopia, French Guiana, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Guyana, Kenya, Liberia, Mali, Mauritania, Niger, Nigeria, Panama, Paraguay, Peru, Rwanda, São Tomé and Príncipe, Senegal, Sierra Leone, Somalia, South Sudan, Sudan, Suriname, Tanzania, Togo, Trinidad and Tobago, Uganda, Venezuela.

We advise all travellers on Southern and East Africa itineraries to carry a valid Yellow Fever vaccination certificate regardless of their country of origin. Given the multi-country nature of these itineraries, travellers will cross borders into countries that require the certificate as a condition of entry from preceding destinations. A traveller entering the itinerary from a non-endemic country may not require the certificate to enter the first country, but will almost certainly require it by the time they cross into a subsequent one. Yellow Fever vaccinations must be administered at least 10 days prior to entry into the first country visited. Under WHO regulations (effective 11 July 2016), certificates are valid for the lifetime of the person vaccinated, there is no 10-year expiry on the certificate itself, though some border officials may be unaware of this. Travellers should carry their original International Certificate of Vaccination or Prophylaxis (yellow card) at all times during the tour. Travellers without a valid certificate run the risk of being denied entry and will not be able to continue with the tour. Any additional travel expenses incurred will be at the traveller's own account.

10. AIRPORT & BORDER HEALTH SCREENINGS

Due to the outbreak of Ebola Virus Disease (EVD) in the Democratic Republic of the Congo (DRC), Rwandan and Ugandan authorities have implemented health screening measures at entry points, including airports and border crossings. Authorities may conduct health screenings of any incoming travelers, including routine medical questioning and temperature readings. Currently, there are no reported cases of Ebola in Uganda or Rwanda, but we want you to be aware of the precautionary measures that are being taken. We recognize that new security measures may be implemented daily throughout the region, so we wish to prepare you with the most current information.

According to the Centers for Disease Control and Prevention (CDC), the Ebola virus is transmitted only through contact with the bodily fluids of an infected individual, as it is not an airborne illness. Per CDC recommendations, we advise our travelers to follow these general hygienic guidelines to help prevent illness while traveling:

- Wash hands with soap and water or an alcohol-based hand sanitizer.
- Avoid contact with the bodily fluids of others.
- For more information about the Ebola virus, please consult the CDC's webpage dedicated to information about Ebola: <http://www.cdc.gov/vhf/ebola/>

11. COMBO TRIP

Please note that this tour combines with other G Adventures tours. As such, the staff and some travel companions on your tour may have previously been traveling together with G Adventures, prior to Day 1 of your tour. Likewise, some staff and travel companions may be continuing together on another G Adventures tour, after your trip concludes.

What are the packing guidelines and luggage restrictions?

Generally speaking, we recommend packing thoughtfully and keeping your luggage to one checked bag at a manageable weight to facilitate seamless transitions throughout your expedition.

What are the visas and entry requirements for my trip?

Securing the necessary visas and travel documentation is an essential step in preparing for your upcoming expedition, and remains the responsibility of each individual traveller. Entry requirements fluctuate depending on your nationality and destination; while we strive to provide the most current information, immigration regulations change frequently. We strongly advise verifying all entry protocols directly with the relevant embassy or consulate well in advance of your departure. Please also ensure your passport remains valid for at least six months beyond your scheduled departure date from the country.

For tailored details specific to your nationality and destination, please consult our dedicated pre-departure resource page at

Kenya:

As of January 1st 2024, the Kenyan government announced the introduction of a new Electronic Travel Authorisation (eTA) scheme, eliminating the requirement for all nationalities to obtain a visitor visa for Kenya. ALL travellers must apply for the eTA, including those that were previously exempt.

For more information, please refer to the eTA site [here](#)

Rwanda:

Most nationalities will require a visa to visit Rwanda. For more information, please refer to the Rwanda immigration department's official website [here](#)

IMPORTANT NOTE:

It may be required to show a Yellow Fever certificate upon entering the country. Please check in with your local consulate and health expert for advice on Yellow Fever and other inoculations required for this area.

Information is accurate as of March 1st, 2024.

What should I consider when planning my personal expenses and discretionary spending for this itinerary?

While personal spending habits naturally vary, we recommend factoring in your individual preferences for shopping, tipping, and beverages to ensure a seamless experience. In addition to these day-to-day comforts, we kindly ask that you maintain access to a minimum of USD \$200 (or its equivalent) as a dedicated emergency fund; though exceptionally rare, unpredictable circumstances such as changing weather patterns or natural events may occasionally necessitate a shift from our planned route, and this reserve ensures we can navigate any path ahead with peace of mind.

What are the tipping guidelines for this trip?

To ensure a seamless and elevated experience throughout your National Geographic Signature departure, gratuities have been fully taken care of for all included meals, activities, and luggage portage.

On our National Geographic Signature tours, tipping is included for all included activities and meals, and portage. Tipping is not included for the Expedition Leader. Should you want some basic guidelines on tipping for the activities you do on your own, please see below. At the end of each trip if you felt your National Geographic Signature Expedition Leader did an outstanding job, tipping is appreciated. The amount is entirely a personal preference, however as a guideline would be \$10-\$15 per person per day. Tipping is neither required nor expected for your National Geographic Expedition Expert.

For the independent moments on your itinerary, tipping is generally not expected across Central Asia. However, should you wish to reward exceptional service during independent dining or activities, a modest gratuity of 3-5% is entirely appropriate and warmly received by local community members.

What activities are optional on this trip?

- No optional activities

Are there any health considerations I should know before travelling?

Please note that health requirements and recommended inoculations vary by destination. To ensure your well-being, it is your responsibility to consult with a specialized travel physician for up-to-date medical guidance well before departure.

We highly recommend carrying a personal first aid kit, hand sanitizer, and any essential prescription medications. Because our itineraries frequently trace paths through remote regions far from advanced medical facilities, legal regulations prohibit our National Geographic Expedition Leaders from administering any medication, including standard over-the-counter pain relievers. While local pharmacies along our route may stock familiar remedies, they are often produced under regional names, so we advise bringing the generic chemical name of any critical prescription. Before finalising your plans, please carefully review the itinerary and physical requirements to ensure your personal fitness aligns with our style of exploration. To safeguard the well-being of the group, we reserve the right to excuse any traveller from all or part of an itinerary if, in the professional judgment of our Expedition Leader, continuing would pose an undue risk to themselves or their fellow travellers.

Yellow Fever Certificate Note (Updated: June 2026)

It is compulsory to show a valid Yellow Fever Certificate if you are travelling to the following G Adventures-visited countries from a Yellow Fever endemic country, or if you have transited for more than 12 hours through the airport of a Yellow Fever endemic country:

Botswana

Kenya*

Malawi

Namibia

South Africa

Tanzania

Uganda*

Zambia

Zimbabwe

*Kenya and Uganda require a valid Yellow Fever Certificate from all travellers regardless of country of origin, not only those arriving from endemic countries. Travellers to these destinations should ensure they are vaccinated regardless of their travel history. If other non-endemic countries have been visited after visiting an endemic country, a Yellow Fever certificate may still be required on entry into subsequent destinations. This is particularly relevant on multi-country Southern Africa itineraries, for example, a traveller moving from Uganda to Kenya, or from Kenya across a land border into Tanzania, will be required to show their certificate at each entry point. Please check country-specific regulations before departure.

Malaria

Malaria is a mosquito-borne disease that is present in some regions in Africa. Risk of malaria can increase during periods of heavy rain, during the rainy seasons, and in densely populated areas of Southern & East Africa. To prevent malaria, we recommend speaking to your doctor about taking preventative medication (prophylaxis), combined with regular use of insect repellent spray/cream. Please check updated travel health advisories specific to malaria before your departure.

What general safety tips and free-time guidelines should I follow?

To ensure your well-being and security throughout our explorations, we recommend consulting your home government's regularly updated international travel advisories prior to departure. For peace of mind while on the move, we strongly advise using a concealed neck wallet or money belt to secure your passport, travel documentation, and currency. We suggest leaving exceptional jewelry at home, as it is unnecessary for our style of travel; instead, make use of the safety deposit boxes available at most of our accommodations. Securing your luggage with a reliable lock is also highly recommended.

When travelling on a departure, your National Geographic Expedition Leader maintains the authority to modify or adapt any portion of the itinerary should environmental conditions or safety considerations require it. Your Expedition Leader accompanies the group on all scheduled activities, but you will also enjoy unstructured time to pursue personal interests, relax, or discover locales at your leisure. While your leader is delighted to suggest local options for these independent periods, please note that these optional choices do not form part of our curated itinerary, and we make no representations regarding their operating standards; we encourage you to exercise your own discerning judgment.

While the destinations we visit are welcoming during the daytime, navigating urban environments at night requires mindfulness. We recommend exploring in small groups and utilizing local taxis when dining out or moving about after dark. Furthermore, should you encounter public demonstrations or political gatherings, please prioritize your safety by leaving the vicinity immediately rather than remaining for photographs, as these situations can evolve rapidly.

Water-based experiences carry inherent risks. To ensure your protection, we recommend participating in aquatic activities only when accompanied by professional guides. Our commitment to safety means that our Expedition Leaders are strictly prohibited from facilitating unguided water activities on your behalf. Please note that swimming and snorkelling are always undertaken at your own risk. For further insights on enhancing your personal safety during your voyage, please visit www.gadventures.com/travel-resources/safety/

What are the mandatory group rules regarding laws and behaviour?

Our philosophy of travel is rooted in deep respect for the people, cultures, and lands we encounter. To ensure the safety of our travellers, staff, and the communities that welcome us, the possession or use of illegal drugs is strictly prohibited on all departures. While certain substances may be woven into local traditions in some regions, they are not permitted within our groups. Furthermore, any form of exploitation, including the solicitation of sex workers, directly contradicts our values. To protect the integrity of the experience and the well-being of the group, our National Geographic Expedition Leader retains the right to remove any traveller who violates these standards.

What are the mandatory travel insurance requirements for this trip?

Comprehensive travel insurance is a mandatory prerequisite for participation in all our departures. To safeguard your well-being, your National Geographic Expedition Leader will kindly request to verify your physical policy details before you may officially join your fellow travellers.

When choosing your coverage, please ensure your policy includes full medical protection, featuring a strict minimum requirement of \$200,000 USD for emergency rescue and medical repatriation. For complete peace of mind while exploring, we also strongly advise securing comprehensive coverage for personal liability, trip cancellation or curtailment, and the loss of luggage and personal belongings. If you intend to rely on insurance provided through your credit card, you must supply formal proof of purchase—such as a credit card statement or receipt in your name—along with explicit confirmation from your banking institution regarding the participating insurer, exact policy limits, and their dedicated 24-hour emergency contact number.
