## Is there a travel disclaimer for my itinerary I should review before booking this trip?

This compiled itinerary represents our thoughtfully designed plan, provided in good faith and correct at the time of publication. However, to ensure we deliver the most rewarding experience possible, our itineraries remain dynamic; we continuously refine our routes based on research, field insights, and guest feedback, meaning details may evolve between the release of our annual directory and your departure. Flexibility is a cornerstone of our travel philosophy, and while we intend to follow the path described, the nature of exploring unpredictable environments means alterations may occur, and any mention of specific destinations or wildlife encounters cannot be guaranteed. We invite you to view these travel times and details as an approximate guide rather than a strict contract, and we kindly ask that you review a final copy of your Trip Details a few days prior to departure to ensure you have the most current information for your upcoming expedition.

Generally speaking, we recommend packing thoughtfully and keeping your luggage to one checked bag at a manageable weight to facilitate seamless transitions throughout your expedition.

Securing the necessary visas and travel documentation is an essential step in preparing for your upcoming expedition, and remains the responsibility of each individual traveller. Entry requirements fluctuate depending on your nationality and destination; while we strive to provide the most current information, immigration regulations change frequently. We strongly advise verifying all entry protocols directly with the relevant embassy or consulate well in advance of your departure. Please also ensure your passport remains valid for at least six months beyond your scheduled departure date from the country.

For tailored details specific to your nationality and destination, please consult our dedicated pre-departure resource page at

[here](#)

## What should I consider when planning my personal expenses and discretionary spending for this itinerary?

While personal spending habits naturally vary, we recommend factoring in your individual preferences for shopping, tipping, and beverages to ensure a seamless experience. In addition to these day-to-day comforts, we kindly ask that you maintain access to a minimum of USD \$200 (or its equivalent) as a dedicated emergency fund; though exceptionally rare, unpredictable circumstances such as changing weather patterns or natural events may occasionally necessitate a shift from our planned route, and this reserve ensures we can navigate any path ahead with peace of mind.

## What should I know about currency, credit cards, and exchanging money while on this tour?

The Canadian currency is the Canadian Dollar (CAD).

Credit cards are accepted almost everywhere in Canada and can be used to purchase most items. When purchasing products or services with a foreign credit card in Canada, you may be charged additional fees by your credit card company for foreign purchases.

Credit cards and debit cards are very useful for cash advances but you must remember to bring your PIN number (be aware that many ATM machines only accept 4-digit PINs). Both Cirrus and Plus system cards are the most widely accepted debit cards. Both Visa and Master Cards are the most widely accepted credit cards. While ATMs are commonly available, there are no guarantees that your credit or debit cards will actually work check with your bank before you travel. A visit to an ATM can be arranged on Day 1 and other days of the trip.

Do not rely on credit or debit cards as your only source of money. A combination of Canadian Dollars as cash (preferably smaller bills, 5's, 10's and 20's) and credit cards is best.

Always take more rather than less, as you don't want to spoil the trip by constantly feeling short of funds.

As currency exchange rates can fluctuate often we ask that you refer to the following website for daily exchange rates: [www.xe.com](http://www.xe.com)

## What activities are optional on this trip?

- No optional activities

## Are there any health considerations I should know before travelling?

Please note that health requirements and recommended inoculations vary by destination. To ensure your well-being, it is your responsibility to consult with a specialized travel physician for up-to-date medical guidance well before departure.

We highly recommend carrying a personal first aid kit, hand sanitizer, and any essential prescription medications. Because our itineraries frequently trace paths through remote regions far from advanced medical facilities, legal regulations prohibit our National Geographic Expedition Leaders from administering any medication, including standard over-the-counter pain relievers. While local pharmacies along our route may stock familiar remedies, they are often produced under regional names, so we advise bringing the generic chemical name of any critical prescription. Before finalising your plans, please carefully review the itinerary and physical requirements to ensure your personal fitness aligns with our style of exploration. To safeguard the well-being of the group, we reserve the right to excuse any traveller from all or part of an itinerary if, in the professional judgment of our Expedition Leader, continuing would pose an undue risk to themselves or their fellow travellers.

## What do I need to know to about safety and security on my trip?

To ensure your well-being and security throughout our explorations, we recommend consulting your home government's regularly updated international travel advisories prior to departure. For peace of mind while on the move, we strongly advise using a concealed neck wallet or money belt to secure your passport, travel documentation, and currency. We suggest leaving exceptional jewelry at home, as it is unnecessary for our style of travel; instead, make use of the safety deposit boxes available at most of our accommodations. Securing your luggage with a reliable lock is also highly recommended.

When travelling on a departure, your National Geographic Expedition Leader maintains the authority to modify or adapt any portion of the itinerary should environmental conditions or safety considerations require it. Your Expedition Leader accompanies the group on all scheduled activities, but you will also enjoy unstructured time to pursue personal interests, relax, or discover locales at your leisure. While your leader is delighted to suggest local options for these independent periods, please note that these optional choices do not form part of our curated itinerary, and we make no representations regarding their operating standards; we encourage you to exercise your own discerning judgment.

While the destinations we visit are welcoming during the daytime, navigating urban environments at night requires mindfulness. We recommend exploring in small groups and utilizing local taxis when dining out or moving about after dark. Furthermore, should you encounter public demonstrations or political gatherings, please prioritize your safety by leaving the vicinity immediately rather than remaining for photographs, as these situations can evolve rapidly.

Water-based experiences carry inherent risks. To ensure your protection, we recommend participating in aquatic activities only when accompanied by professional guides. Our commitment to safety means that our Expedition Leaders are strictly prohibited from facilitating unguided water activities on your behalf. Please note that swimming and snorkelling are always undertaken at your own risk. ## What are the trip specific safety considerations?

For peace of mind while on the move, we strongly advise using a concealed neck wallet or money belt to secure your passport, travel documentation, and currency. We suggest leaving exceptional jewelry at home, as it is unnecessary for our style of travel; instead, make use of the safety deposit boxes available at most of our accommodations. Securing your luggage with a reliable lock is also highly recommended.

## What rules should I know before joining this trip?

Our philosophy of travel is rooted in deep respect for the people, cultures, and lands we encounter. To ensure the safety of our travellers, staff, and the communities that welcome us, the possession or use of illegal drugs is strictly prohibited on all departures. While certain substances may be woven into local traditions in some regions, they are not permitted within our groups. Furthermore, any form of exploitation, including the solicitation of sex workers, directly contradicts our values. To protect the integrity of the experience and the well-being of the group, our National Geographic Expedition Leader retains the right to remove any traveller who violates these standards.

## Is travel insurance required for my trip?

Comprehensive travel insurance is a mandatory prerequisite for participation in all our departures. To safeguard your well-being, your National Geographic Expedition Leader will kindly request to verify your physical policy details before you may officially join your fellow travellers.

When choosing your coverage, please ensure your policy includes full medical protection, featuring a strict minimum requirement of \$200,000 USD for emergency rescue and medical repatriation. For complete peace of mind while exploring, we also strongly advise securing comprehensive coverage for personal liability, trip cancellation or curtailment, and the loss of luggage and personal belongings. If you intend to rely on insurance provided through your credit card, you must supply formal proof of purchase—such as a credit card statement or receipt in your name—along with explicit confirmation from your banking institution regarding the participating insurer, exact policy limits, and their dedicated 24-hour emergency contact number.

## What is Planeterra?

Planeterra International Foundation is a non-profit organization committed to turning travel into impact by helping local communities earn an income from tourism. Planeterra connects underserved local communities to the benefits of tourism by developing and supporting small community-owned businesses. These businesses support Indigenous people, empower women, grant youth access to employment opportunities, and protect the environment. Planeterra also works to ensure these businesses have a thriving customer base by integrating their projects into G Adventures' itineraries globally.

G Adventures is Planeterra's largest corporate donor, covering all operating costs, so 100% of your donation will bring opportunity to people in need.
